

Emergency Phone Numbers

WHO TO CALL AND WHEN:

If you suspect that you might be in labor, we would like to know. That does not mean we are going to run right over, but it will give us a chance to clear things up at home and get the equipment ready. We will usually sound things out over the phone as to what stage of labor you are in. When you are ready for us to come, we will be on our way.

Debbie Pulley:	Office -	xxx-xxx-xxxx
	Cell phone -	xxx-xxx-xxxx
